

Rainbow Care

# NDIS PLAN MANAGEMENT

---

*Rainbow Care is an openly LGBTIQ+ owned and operated business that specialises in meeting the needs of the LGBTIQ+ community.*

Do you have an NDIS plan and need help to keep track of your spends, your funding or your plan budget? Our Plan Management service can take the stress and worry away of managing your NDIS budget as well as help you maximise your funding.

By providing personalised help with the administration and payments of your supports, you will be in control and well informed.

We:

- Deliver same day invoice processing for quicker payments to your providers
- Are a small company so you will know who you are talking to at each interaction
- Provide you with monthly statements, keeping you up-to-date
- Aim to find high quality services that provide you with the best value for money
- Supply access to your own budget dashboard or access for your support coordinator to assist in tracking your funds, invoices and service agreements

You will know what invoices have been paid, what has been claimed and importantly, how much money is remaining in your budget.

Our Plan Management service gives you back your time and peace of mind, knowing that we have your plan finances all sorted.

This is a national service so wherever your based we have you covered!
